#### INDEPENDENT AUDITOR'S REPORT

September 26, 2023

Board of Directors Providence Creek Academy Charter School, Inc. Clayton, Delaware

#### **Opinions**

We have audited the financial statements of the governmental activities and each major fund of Providence Creek Academy Charter School, Inc., Clayton, Delaware, a component unit of the State of Delaware, as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the School's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of Providence Creek Academy Charter School, Inc., Clayton, Delaware, as of June 30, 2023, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America ("GAAS") and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Providence Creek Academy Charter School, Inc. and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### Responsibilities of Management for the Financial Statements

Providence Creek Academy Charter School, Inc.'s management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in

#### Board of Directors Providence Creek Academy Charter School, Inc.

the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Providence Creek Academy Charter School, Inc.'s ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

#### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS and Government Auditing Standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Providence Creek Academy Charter School, Inc.'s internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Providence Creek Academy Charter School, Inc.'s ability to continue as a going concern for a reasonable period of time.

#### Board of Directors Providence Creek Academy Charter School, Inc.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

#### Report on Summarized Comparative Information

We have previously audited Providence Creek Academy Charter School, Inc.'s 2022 financial statements, and we expressed unmodified opinions on the respective financial statements of the governmental activities and each major fund in our report dated October 3, 2022. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2022 is consistent, in all material respects, with the audited financial statements from which it has been derived.

#### **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 5 through 11 and the budgetary comparison schedule - general fund, schedule of the School's proportionate share of the net pension liability, schedule of School pension contributions, schedule of the School's proportionate share of the net OPEB liability, and schedule of School OPEB contributions on pages 40 through 43 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the School's basic financial statements. The combining balance sheet - general fund, combining statement of revenues, expenditures, and changes in fund balances - general fund, schedule of expenditures by natural classification - governmental funds, and schedule of expenditures of federal awards, as required by the audit requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* ("Uniform Guidance"), are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining balance sheet - general fund, combining statement of revenues, expenditures, and changes in fund balances - general fund, schedule of expenditures by natural classification - governmental funds, and schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records

#### Board of Directors Providence Creek Academy Charter School, Inc.

used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining balance sheet - general fund, combining statement of revenues, expenditures, and changes in fund balances - general fund, schedule of expenditures by natural classification - governmental funds, and schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

#### Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated September 26, 2023, on our consideration of the School's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the School's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Our discussion and analysis of Providence Creek Academy Charter School, Inc.'s ("the School") financial performance provides an overview of the financial activities for the year ended June 30, 2023. Please read it in conjunction with the Independent Auditor's Report on pages 1 - 4 and the School's financial statements, which begin on page 12.

#### FINANCIAL HIGHLIGHTS

The net deficit of the School decreased by \$1,394,508, or 12.23%. Program revenues accounted for \$1,732,472, or 16.88% of total revenues, and the general revenues accounted for \$8,529,725, or 83.12% of total revenues. Also, the general fund reported a positive fund balance of \$3,454,514.

The largest changes in the School's statement of net position compared to FY 2022 can be seen in the deferred inflows. Deferred inflows decreased by \$2,098,177. These decreases were mainly driven by the change in the valuation for GASB Statement No. 68 during the fiscal year.

#### USING THE ANNUAL FINANCIAL REPORT

This annual financial report consists of a series of financial statements and related notes to those statements. The statements are organized so the reader can understand the School as a whole, and then to provide an increasingly detailed look at specific financial activities.

#### REPORTING THE SCHOOL AS A WHOLE

#### The Statement of Net Position and Statement of Activities

One of the most important questions asked about School finances is, "Is the School better or worse off as a result of the year's activities?" The statement of net position and the statement of activities report information about the School as a whole and about its activities in a manner that helps to answer this question. These statements include all assets, deferred outflows of resources, liabilities, and deferred inflows of resources using the accrual basis of accounting which is similar to the accounting used by private sector corporations. All of the year's revenues and expenses are taken into consideration regardless of when the cash is received or paid. These two statements report the School's net position and changes thereof. The change in net position provides the reader with a tool to assist in determining whether the School's financial health is improving or deteriorating. The reader will need to consider other nonfinancial factors such as student enrollment and facility conditions in arriving at their conclusion regarding the overall health of the School.

#### REPORTING THE SCHOOL'S MOST SIGNIFICANT FUNDS

#### Fund Financial Statements

Our analysis of the School's major funds and fund financial statements begins on page 14. These statements provide detailed information about the most significant funds and not the School as a

whole. Certain funds are required to be established by state statute, while many other funds may be established by the School to help manage money for particular purposes and compliance with various grant provisions.

#### Governmental Funds

All of the School's activities are reported in the governmental funds, which focus on how money flows into and out of those funds and the balances left at year end available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and other financial assets that can readily be converted to cash. The statement of the governmental funds provides a detailed short-term view of the School's general government operations and the basic services it provides. Governmental fund information helps one determine whether there are more or less financial resources available to spend in the near future to finance the School's programs. The difference between governmental activities (reported in the statement of net position and the statement of activities) and the governmental funds is reconciled in the basic financial statements.

#### **GOVERNMENT-WIDE FINANCIAL ANALYSIS**

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the School, liabilities and deferred inflows of resources exceeded assets and deferred outflows of resources by \$10,011,764 at the close of the fiscal year. The School's total assets are comprised of cash and equivalents (28.98%), accounts receivable (0.37%) and capital assets net of depreciation (42.84%). The School uses capital assets to provide services; consequently, capital assets are not available for future spending. Although the School's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay such debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate the debt obligations.

A summarized comparative analysis for the fiscal year 2023 to 2022 follows:

Total Expenses	8,867,689	8,001,958
Change in Net Deficit	\$ 1,394,508	\$ 1,391,755

#### **Governmental Activities**

The net deficit of the School's governmental activities decreased by \$1,394,508, and unrestricted net position reflects a negative balance of \$10,612,431. The decrease in the net deficit is attributable to an increase in total revenues.

The statement of activities shows the cost of program services and the charges for services, and grants and contributions offsetting those services. The table below reflects the cost of program services and the net cost of those services after taking into account the program revenues for the governmental activities. General revenues which include charges to school districts, state aid not restricted for specific purposes, cash equivalent earnings, and other local revenues must support the net cost of the programs.

	SERVICES						
	20	23	20	22

Total Expenses	\$ 8,867,689	\$ 7,135,217	\$ 8,001,958	\$ 6,065,170			

The reliance on general revenues to support the governmental activities is reflected by the net cost services' columns, which basically indicate the need for general support to fund School operations.

#### THE SCHOOL'S FUNDS

The governmental funds (as presented on the balance sheet on page 14) reported a fund balance of \$3,796,156, which is an increase from the prior year's amount by \$291,146. The schedule below indicates the fund balance and the total changes in fund balance from June 30, 2022 to June 30, 2023.

	2023	2022	Increase
Governmental Fund Balance	• • • • • • •	• • • • • • • •

Total Fund Balance	\$ 3,796,156	\$ 3,505,010	\$ 291,146

#### **General Fund**

The increase in the School's fund balance of the general fund is due mainly to increases in funding from state and federal sources. This was offset by increases in expenditures for debt service and operation and maintenance of facilities.

The tables that follow will assist the reader in evaluating the financial activities as compared to the prior year.

#### **Debt Service Fund**

The fund is maintained to accumulate resources for the payment of principal and interest on longterm general obligation debt. The debt service fund had a fund balance of \$341,642 as of June 30, 2023.

#### GENERAL FUND BUDGET INFORMATION

The School's budget is prepared on the modified accrual basis of accounting. The most significant budgeted fund is the general fund. The School may amend its revenue and expenditure estimates periodically due to changing conditions.

For the fiscal year ended June 30, 2023, actual revenues came in under anticipated amounts by \$577,335, and actual expenditures came in under budget by \$430,564.

#### CAPITAL ASSETS

The School has \$10,662,365 invested in capital assets, net of depreciation/amortization. During the current year, the School made acquisitions of \$935,273, and incurred depreciation of \$486,403.

#### DEBT ADMINISTRATION

As of June 30, 2023, the School had total outstanding debt of \$10,385,902 in the form of bonds, leases, and a note payable. Detailed information regarding long-term debt activity is included in Note 4 to the financial statements.

Other obligations include the net pension liability, net OPEB liability, accrued vacation pay, and sick leave for School employees. More detailed information about long-term liabilities is included in Notes 4, 6, and 7 to the financial statements.

#### FACTORS EXPECTED TO HAVE AN EFFECT ON FUTURE OPERATIONS

The School is primarily funded by the State of Delaware and local school districts and, thus, is affected by the economic outlook for the state and school districts. The state and school districts continue to support the funding of education.

The financial model the School has developed is based on the funding formula currently in effect under the Delaware Charter School Law. If the funding formula for charter schools changes, adjustments to the underlying assumptions of the model will have to be made.

#### CONTACTING THE SCHOOL'S FINANCIAL MANAGEMENT

This financial report is designed to provide our fellow citizens, customers, investors, and creditors with a general overview of the School's finances and to show the School's accountability for the funding received. If you have questions about this report or need additional financial information, contact the School's Finance Office at (302) 653-6276 or by writing to 273 West Duck Creek Road, Clayton, DE 19938.

TOTAL FUND BALANCE - GOVERNMENTAL FUNDS		\$ 3,796,156
The total net deficit reported for governmental activities in the statement of net position is different because:		
Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds. Capital assets net of accumulated depreciation/amortization as detailed in the footnotes are included in the statements of net position.		10,662,365
Long term assets and liabilities are not due, receivable and or payable in the current period and, therefore, are not reported in the funds. Those assets and liabilities consist of:

NET CHANGE IN FUND BALANCES - GOVERNMENTAL FUNDS		\$ 291,146
Amounts reported for governmental activities in the statement of activities are different because:		
The governmental fund reports capital outlays as expenditures. However, in the statement of activities, assets with an initial, individual cost of more than \$5,000 are capitalized, and the cost is allocated over their estimated useful lives and reported as depreciation and amortization expense. This is the amount by which depreciation and amortization exceeded capital outlays in the current period.		
Capital outlays Depreciation/amortization expense	\$ 935,273 (486,403)	448,870
The issuance of long-term debt (e.g., notes, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position.		
Principal payments on bonds, lease, and note payable		306,517
Interest on long-term debt in the statement of activities differs from the amount reported in the governmental funds because interest is recognized as an expenditure in the funds when it is due and, thus, requires the use of current financial resources. In the statement of activities, however, interest expense is recognized as the interest accrues, regardless of when it is due.		355
Some expenses reported in the statement of activities do not require the use of current resources and, therefore, are not reported as expenditures in the governmental funds.		
Compensated absences		45,493
Pension expenses in the statement of activities differ from the amount reported in the governmental funds because pension expenses are recognized on the statement of activities based on the School's proportionate share of the expenses of the cost-sharing pension plan, whereas pension expenditures are recognized in the governmental funds when a requirement to remit contributions to the plan exists.		5,852
OPEB expenses in the statement of activities differ from the amount reported in the governmental funds because OPEB expenses are recognized on the statement of activities based on the School's proportionate share of the expenses of the cost-sharing plan, whereas OPEB expenditures are recognized in the governmental funds when a requirement to remit contributions to the plan exists.		296,275

#### NOTES TO FINANCIAL STATEMENTS

#### NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### Description of the Charter School

Providence Creek Academy Charter School, Inc. ("the School") is organized under Delaware Code, Title 14, Chapter 5 of the State of Delaware. The Charter School Law grants authority for independent public schools to be created for the purpose of increasing choices for parents of public school students and increasing academic performance. A charter school is an independent public school governed by an independent board of directors. In Delaware, charter schools have the same basic standing as a school district with some exceptions - most notably, they may not levy taxes. To encourage innovation, charter schools operate free from a number of state laws and regulations. An initial charter is granted for a three-year period, renewable every five years thereafter.

Charter schools are funded similarly to other public schools in that state and local funds are allocated for each enrolled student. Public funds are not provided for facilities. Charter schools may charge for selected additional costs consistent with those permitted by other school districts. Because a charter school receives local, state, and federal funds, they may not charge tuition.

The financial statements of the School have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to local governmental units. The Governmental Accounting Standards Board ("GASB") is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant accounting policies of the School are described below.

#### **Reporting Entity**

The School is a special purpose government and is considered a component unit of the State of Delaware. A component unit, although a legally separate entity, is, in substance, part of the State of Delaware's operations. The School has no component units for which it is considered to be financially accountable.

#### Entity-wide and Fund Financial Statements

The entity-wide financial statements (the statement of net position and the statement of activities) report information on all of the activities of the School. For the most part, the effect of interfund activity has been removed from these financial statements.

The statement of activities demonstrates the degree to which the direct expenses of a given program are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific program. Program revenues include grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Amounts reported as program revenues include 1) charges to students for special fees, supplies, food, or services

#### NOTES TO FINANCIAL STATEMENTS

#### NOTE 1 <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u> (cont'd)

provided; 2) operating grants and contributions; and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include charges to school districts.

Separate financial statements are provided for the governmental funds.

#### Measurement Focus, Basis of Accounting, and Financial Statement Presentation

**Entity-wide financial statements** are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Charges to the School are recognized as revenues in the year for which they are billed. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

**Governmental funds financial statements** are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the School considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, are recorded only when payment is due.

Charges to the school districts, state appropriations, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when the School receives cash.

The School reports the following major governmental funds:

**General Fund** – The general fund is the School's primary operating fund. It accounts for all financial resources of the School, except those required to be accounted for in another fund.

**Debt Service Fund** – These funds are maintained to accumulate resources for the payment of principal and interest on long-term general obligation debt.

#### **Encumbrance Accounting**

Encumbrance accounting is employed by the School's governmental funds. Encumbrances (i.e. purchase orders and contracts) outstanding at year end are reported as assigned fund balance

#### NOTES TO FINANCIAL STATEMENTS

#### NOTE 1 <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u> (cont'd)

and do not constitute expenditures or liabilities because the commitments will be reappropriated and honored during the subsequent year.

#### **Receivables**

The School considers all accounts receivable at year end to be collectible; therefore, no allowance for doubtful accounts has been recorded.

#### Capital Assets

Capital assets, which include land improvements, buildings, furniture and equipment, and vehicles, are reported in the entity-wide financial statements. The School defines capital assets as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost. When the historical cost cannot be determined, the value shall be fixed by estimation based on those assets which are currently in existence. Donated capital assets are recorded at estimated fair value at the date of donation. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend lives of the assets are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest cost incurred during construction is not capitalized.

Capital assets of the School are depreciated using the straight-line method over the estimated useful lives of the related assets. Right to use assets are amortized over the life of the lease. The School generally uses the following estimated useful lives:

Land improvements	15 years
Buildings	40 years
Furniture and equipment	5 - 7 years
Vehicles	5 years

#### **Compensated Absences**

Vacation pay plus related payroll taxes are accrued when incurred in the entity-wide financial statements. A liability for these amounts is reported in the governmental fund only when the liability matures, for example, as a result of employee resignations and retirements.

**Vacation** – Twelve-month employees can accumulate up to 42 days of vacation. Any days in excess of 42 are dropped as of July 1 of each year. Employees are paid for unused vacation upon termination and retirement at the current rate of pay.

**Sick Leave** – Any unused sick days shall be accumulated to the employee's credit. Compensation for accumulated sick days is received when employees (a) qualify and apply for

#### NOTES TO FINANCIAL STATEMENTS

#### NOTE 1 <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u> (cont'd)

state pension and are paid at a rate of 50% of the per diem rate of pay not to exceed 90 days; or (b) in the case of death, when payment is made to the employee's estate at a rate of one day's pay for each day of unused sick leave not to exceed 90 days.

Earned unused sick leave may be transferred to another state agency if the employee remains a state employee or is later rehired as a state employee. Sick time does not accrue while an employee is on leave of absence, unless otherwise required by law.

The School's compensated absences liability was \$204,661 at June 30, 2023.

#### Fund Equity

Fund balance will be displayed in the following classification (if applicable) depicting the relative strength of the spending constraints placed on the purposes for which resources can be used:

Nonspendable – amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact.

*Restricted* – amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.

Committed – amounts that can be used only for specific purposes determined by formal action of the Board of Directors. The Board is the highest level of decision-making authority for the School. Commitments may be established, modified, or rescinded only through resolutions approved by the Board of Directors.

Assigned – amounts that do not meet the criteria to be classified as restricted or committed but that are intended to be used for specific purposes. The Head of School may assign amounts for specific purposes.

Unassigned – all other spendable amounts.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balances are available, the School considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the School considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the Board or Head of School has provided otherwise in its commitment or assignment actions.

#### NOTES TO FINANCIAL STATEMENTS

#### NOTE 1 <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u> (cont'd)

#### Net Position

Net position represents the difference between assets, deferred outflows of resources, liabilities, and deferred inflows of resources. The net investment in capital assets consists of capital assets, net of accumulated depreciation and amortization, reduced by the outstanding balances of any borrowings used for the acquisition, construction, or improvement of those assets.

Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the School or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. Any remaining portions of net position are reflected as unrestricted. When both restricted and unrestricted resources are available for use, it is the School's policy to use restricted resources first and then unrestricted resources as they are needed.

#### Long-Term Obligations

In the entity-wide financial statements, long-term debt and other long-term obligations are reported as liabilities. Bond premiums and bond discounts are amortized over the life of the bonds using the straight-line method. Bond issuance costs are expensed when incurred.

In the fund financial statements, governmental fund types recognize bond premiums, bond discounts, and bond issuance costs during the current period. The face amount of debt issued is reported as other financing sources. Premiums and discounts on debt issuances are reported as other financing sources. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

#### Deferred Outflows and Inflows of Resources

In addition to assets, the statement of net position includes a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to future periods and so will not be recognized as an outflow of resources (expense) until then. The School reports deferred pension and OPEB contributions resulting from pension and OPEB contributions subsequent to the measurement date of the net pension liability and OPEB liability and OPEB liability which will be amortized over future periods. In addition to liabilities, the statement of net position includes a separate section for deferred inflows of resources. This separate financial statement element represents a source of net position that applies to future periods. The School reports certain items which represent differences related to changes in the net pension liability and OPEB liability which will be amortized over future periods. In addition to liabilities, the statement of net position includes a separate section for deferred inflows of resources. This separate financial statement element represents a source of net position that applies to future periods. The School reports certain items which represent differences related to changes in the net pension liability and OPEB liability which will be amortized over future periods.

#### NOTES TO FINANCIAL STATEMENTS

#### NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

#### Income Tax Status

The School is exempt from federal income tax under Section 501(c)(3) of the Internal Revenue Code and, therefore, has no provision for federal income taxes. The School qualifies for the charitable contribution deduction under Section 170(b)(1)(A) and has been classified as an organization that is not a private foundation under Section 509(a)(1). The School did not engage in any unrelated business activities during the fiscal year. Management believes more likely than not that its tax-exempt status and tax positions will be sustained if examined by authorities.

#### Use of Estimates

The preparation of basic financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

#### Comparative Data

Comparative total data for the prior year is presented in the basic financial statements to provide an understanding of changes in the School's financial position and operations. That comparative data is not at the level of detail required for a presentation in conformity with accounting principles generally accepted in the United States of America and, therefore, should be read in conjunction with the School's financial statements for the year ended June 30, 2022, from which the summarized information was derived.

#### NOTE 2 CASH AND CASH EQUIVALENTS

At June 30, 2023, the School has a cash and cash equivalents balance of \$4,426,274. Of that amount, \$4,082,394 is part of an investment pool controlled by the personnel of the State Treasurer's Office in Dover, Delaware, and all investment decisions are made by the State Treasurer's Office. These funds are considered to be highly liquid and available for immediate use and, thus, are recorded as cash equivalents in these financial statements.

The funds held by the State of Delaware investment pool, an internal investment pool, are specifically identified for the School, but the credit risk cannot be categorized for these funds. Credit risk for such investments depends on the financial stability of the State of Delaware. The State reports that its investment securities are stated at quoted market prices, except that investment securities with a remaining maturity at time of purchase of one year or less are stated at cost or amortized cost.

#### NOTES TO FINANCIAL STATEMENTS

#### NOTE 2 CASH AND CASH EQUIVALENTS (cont'd)

At June 30, 2023, the reported amount of the School's deposits not held with the State Treasurer's Office was \$343,880, and the bank balance was \$343,880. Of the bank balance, \$250,000 was covered by federal depository insurance, \$93,880 was exposed to custodial credit risk because it was uninsured, and the collateral held by the depository's agent was not in the School's name.

#### NOTE 3 CAPITAL ASSETS

Capital asset activity for the year ended June 30, 2023 is as follows:

#### NOTE 4 LONG-TERM DEBT

On December 1, 2009, the School issued \$6,835,000 of Economic Development Revenue Bonds Taxable Series 2008A through Kent County, Delaware for the purchase of land and a building. The bonds bear interest at 3.51%; principal and interest payments are payable semi-annually on December 1 and June 1 each year. The bonds mature December 1, 2038.

On December 1, 2009, the School entered into a note agreement with the USDA in the principal amount of \$6,000,000. The note was for the financing of the School building and is collateralized by the building, supplies, furniture and fixtures, equipment, and vehicles of the School. The note bears interest at 4.25% and calls for monthly payments consisting of principal and interest of \$26,280. The note matures December 1, 2049.

#### NOTE 6 PENSION PLAN

#### Plan Description

The State Employees' Pension Plan ("the Plan") is a cost sharing multiple-employer defined-benefit pension plan established in the Delaware Code. The Plan is administered by the Delaware Public Employees' Retirement System ("DPERS").

#### NOTES TO FINANCIAL STATEMENTS

#### NOTE 6 <u>PENSION PLAN</u> (cont'd)

The General Assembly is responsible for setting benefits and contributions and amending plan provisions; administrative rules and regulations are adopted and maintained by the Board of Pension Trustees (the Board).

The management of the Plan is the responsibility of the Board. The Board is comprised of five members appointed by the Governor and confirmed by the State Senate, plus two ex-officio members. The daily operation is the responsibility of the Office of Pensions. Although Plan assets are comingled with assets of other Plans and Funds for investment purposes, the Plan's assets may be used only for the payment of benefits to the members of the Plan in accordance with the terms of the Plan.

The following are brief descriptions of the Plan in effect as of June 30, 2022. For a more complete description, please refer to the DPERS Annual Comprehensive Financial Report. Separately issued financial statements for DPERS are available from the Office of Pensions at: McArdle Building, Suite 1, 860 Silver Lake Blvd., Dover, DE 19904

#### Plan Description and Eligibility

The State Employees' Pension Plan is a cost-sharing multiple-employer defined benefit plan that covers virtually all full-time or regular part-time employees of the State, including employees of other affiliated entities. There are two tiers within this plan: 1) Employees hired prior to January 1, 2012 (Pre-2012) 2) Employees hired on or after January 1, 2012 (Post-2011).

#### **Benefits Provided**

#### Service Benefits

Final average monthly compensation (employee hired post-2011 may not include overtime pay in pension compensation) multiplied by 2.0% and multiplied by years of credited service prior to January 1, 1997, plus final average monthly compensation multiplied by 1.85% and multiplied by years of credited service after December 31, 1996, subject to minimum limitations.

For employees classified as Correctional Officers or Specified Peace Officers, final average compensation multiplied by 2.45% for years of service above 25 years and final average compensation multiplied by 2.5% for years up to 20 years, plus 3.5% for years of service above 20 years. For this plan, final average monthly compensation is the monthly average of the highest three periods of 12 consecutive months of compensation.

#### Vesting

Pre-2012 date of hire: 5 years of credited service. Post-2011 date of hire: 10 years of credited service (5 of which must be consecutive).

#### NOTES TO FINANCIAL STATEMENTS

#### NOTE 6 <u>PENSION PLAN</u> (cont'd)

#### Retirement

Pre-2012 date of hire: Age 62 with 5 years of credited service; age 60 with 15 years of credited service; or after 30 years of credited service at any age. Post-2011 date of hire: age 65 with at least 10 years of credited service; Age 60 with 20 years of credited service; and 30 years of credited service at any age.

#### Disability Benefits

Pre-2012 date of hire: Same as Service Benefits. Employee must have 5 years of credited service. In lieu of disability pension benefits, over 90% of the members of this plan opted into a Disability Insurance Program offered by the State effective January 1, 2006. Post-2011 date of hire; in the Disability Insurance Program.

#### Survivor and Burial Benefits

If employee is receiving a pension, the eligible survivor receives 50% of pension (or 67.7% with 2% reduction of benefit, 75% with 3% reduction of benefit, or 100% with 6% reduction of benefit); if employee is active with at least 5 years of credited service, eligible survivor receives 75% of pension the employee would have received at age 62.

Amount payable to a surviving spouse under age 50 at the time the survivor's pension begins, shall be reduced for each month under age 50 in accordance with actuarial tables approved by the Board. Any actuarial reduction for such a spouse shall however not apply for the period during which the spouse has in his or her care, an unmarried child or children.

Burial benefits are established at \$7,000 per plan member.

#### **Contributions**

#### Member Contributions

Pre-2012 date of hire employees contribute 3% of earnings in excess of \$6,000. Post-2011 date of hire employees contribute 5% of earnings in excess of \$6,000.

#### **Employer** Contributions

Employer contributions are determined by the Board. For the year ended June 30, 2023, the rate of the employer contribution was 11.15% of covered payroll. The School's contribution to PERS for the year ended June 30, 2023 was \$363,960.

#### NOTES TO FINANCIAL STATEMENTS

#### NOTE 6 <u>PENSION PLAN</u> (cont'd)

#### **PRI** Contribution

All reporting units participating in the State PERS make contributions to a PRI fund which accumulates resources to fund ad hoc postretirement increases granted by the General Assembly. The increases are funded over a five-year period from the PRI fund. The allocation of the contribution from the PRI fund to the pension trust is a reduction of the net pension liability of each participating employer.

#### Pension Liability and Expense, and Deferred Outflows and Inflows of Resources

At June 30, 2023, the School reported a liability of \$1,858,527 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2022, and the total pension liability used to calculate the net pension liability was determined by rolling forward the Plan's total pension liability as of June 30, 2021 to June 30, 2022. The School's proportion of the net pension liability was calculated based on the actual contributions made during the measurement period in proportion to the total of all employer contributions made during the measurement period. At June 30, 2022, the School's proportion was 0.1359%, which was an increase of 0.0001% from its proportion measured as of June 30, 2021.

For the year ended June 30, 2023, the School recognized pension expense of \$358,108. At June 30, 2023, the School reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Net difference between projected and		
actual investment earnings	\$ 356,657	\$-
Changes in proportions	13,311	71,115
Changes in assumptions	200,957	-
Differences between actual and expected		
experience	191,919	-
Contributions subsequent to the date of		
measurement	363,960	
	\$1,126,804	\$ 71,115

An amount of \$363,960 is reported as deferred outflows of resources resulting from the School's contributions subsequent to the June 30, 2022 measurement date and will be recognized as a reduction of the net pension liability in the year ended June 30, 2024. Other amounts will be reported as deferred outflows of resources and deferred inflows of resources related to pensions, and will be recognized in pension expense as follows:

#### NOTES TO FINANCIAL STATEMENTS

#### NOTE 6 PENSION PLAN (cont'd)

#### Year Ending June 30,

2023 2024 2025 2026 2027	\$ \$ 12,922 (56,471) (12,426) 755,961 (8,257)	
	\$ 691,729	

#### **Actuarial Assumptions**

The total pension liability as of the June 30, 2022 measurement date was determined by an actuarial valuation as of June 30, 2021, and update procedures were used to roll forward the total pension liability to June 30, 2022. These actuarial valuations used the following actuarial assumptions, applied to all periods:

- Investment return/discount rate 7.0%, including inflation of 2.5%
- Salary increases 2.5% plus merit, including inflation of 2.5%
- Cost-of-living adjustments 0.0%

The total pension liability is measured based on assumptions pertaining to interest rates, inflation rates, and employee demographic behavior in future years. It is likely that future experience will not exactly conform to these assumptions. To the extent that actual experience deviates from these assumptions, the emerging liabilities may be higher or lower than anticipated. The more the actual experience deviates, the larger the impact on future financial statements.

Mortality assumptions are based on the Pub-2010 Mortality Tables with Gender Adjustments for Employees, Healthy Annuitants, and Disabled Retirees as well as an adjusted version on MP-2020 Mortality Improvement Scale on a fully generational basis.

Projected benefit payments do not include the effects of projected ad hoc cost-of-living adjustments ("ad hoc COLAs"), as they are not substantively automatic. The primary considerations relevant to making this determination include the historical patterns of granting the changes and the consistency in the amounts of the changes.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by an asset allocation percentage, which is based on the nature and mix of current and expected plan investments, and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in the Plan are summarized in the following table:

#### NOTES TO FINANCIAL STATEMENTS

#### NOTE 6 PENSION PLAN (cont'd)

	Long-term Expected Real	Target Asset
Asset Class	Rate of Return	Allocation
Domestic equity	5.7%	31.8%
International equity	5.7%	15.0%
Fixed income	2.0%	23.6%
Alternative investments	7.8%	21.5%
Cash and equivalents	0.0%	8.1%

#### **Discount Rate**

The discount used to measure the total pension liability was 7.0%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from employers will be made at rates determined by the Board, as actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

# Sensitivity of the School's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability, calculated using the discount rate of 7.0%, as well as what the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.0%) or one percentage point higher (8.0%) than the current rate.

	1%	Current	1%
	Decrease 6.0%	Discount Rate 7.0%	Increase 8.0%
School's proportionate share of the net pension liability	\$ 3,880,890	\$ 1,858,527	\$ 303,901

#### Pension Plan Fiduciary Net Position

Detailed information about PERS' fiduciary net position is available in PERS Annual Comprehensive Financial Report, which can be found on the Plan's website at www.delawarepensions.com.

# NOTES TO FINANCIAL STATEMENTS

# NOTE 7 OTHER POSTEMPLOYMENT BENEFITS PLAN

#### Plan Description

School employees are considered state employees and are covered under the State of Delaware Employees' Other Postemployment Benefits ("OPEB") Fund Trust ("the Plan"), which is a cost-sharing, multiple-employer defined benefit plan established in the Delaware Code.

The State of Delaware General Assembly is responsible for setting benefits and contributions and amending plan provisions; administrative rules and regulations are adopted and maintained by the DEPRS Board of Pension Trustees, which acts as the Board of Trustees ("the Board") for the Plan and is responsible for the financial management of the Plan.

The following are brief descriptions of the Plan in effect as of June 30, 2022. For a more complete description, please refer to the Delaware Public Employees' Retirement System Annual Comprehensive Financial Report. Separately issued financial statements for the Plan may be obtained by writing to the State of Delaware Public Employee Retirement System, McArdle Building, Suite 1, 860 Silver Lake Boulevard, Dover, DE 19904; by calling 1-800-722-7300; or by visiting the PERS website at www.delawarepensions.com.

#### Plan Description and Eligibility

The Plan is a cost-sharing multiple employer plan that covers all employees of the State that are eligible to participate in the defined benefit pension plan, including employees of other affiliated entities.

# **Benefits Provided**

The Plan provides medical coverage to pensioners and their eligible dependents. The participant's cost of plan benefits is variable based on years of service. Pensioners who retire after July 1, 2012 and who become eligible for Medicare will pay an additional 5% of the Medicare Supplement offered by the State. Surviving spouses are eligible for coverage after a retiree's death.

# **Contributions**

# **Employer** Contributions

Participating employers fund the Plan for current retirees on a pay-as-you-go basis along with funding for future benefits at a rate that is approved in the annual budget, but not actuarially determined. For the year ended June 30, 2023, the rate of the employer contribution was 14.98% of covered payroll. The School's contribution to the Plan for the year ended June 30, 2023 was \$488,945.

#### NOTES TO FINANCIAL STATEMENTS

#### NOTE 7 OTHER POSTEMPLOYMENT BENEFITS PLAN (cont'd)

# Other Postemployment Benefits Plan Liability and Expense, and Deferred Outflows and Inflows of Resources

At June 30, 2023, the School reported a liability of \$11,159,369 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2022, and the total OPEB liability used to calculate the net OPEB liability was determined by rolling forward the Plan's total OPEB liability as of June 30, 2021 to June 30, 2022. The School's proportion of the net OPEB liability was calculated based on the actual contributions made during the measurement period in proportion to the total of all employer contributions made during the measurement period. At June 30, 2022, the School's proportion was 0.1316%, which was an increase of 0.0004% from its proportion measured as of June 30, 2021.

For the year ended June 30, 2023, the School recognized OPEB expense of \$192,670. At June 30, 2023, the School reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Net difference between projected and actual investment earnings	\$ 26,057	\$ -
Changes in proportions	134,716	. 604,689

An amount of \$488,945 is reported as deferred outflows of resources resulting from the School's contributions subsequent to the June 30, 2022 measurement date and will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2024. Other amounts will be reported as deferred outflows of resources and deferred inflows of resources related to OPEB, and will be recognized in OPEB expense as follows:

# NOTES TO FINANCIAL STATEMENTS

# NOTE 7 OTHER POSTEMPLOYMENT BENEFITS PLAN (cont'd)

#### Actuarial Assumptions

The total OPEB liability as of the June 30, 2022 measurement date was determined by an actuarial valuation as of June 30, 2021, and update procedures were used to roll forward the total pension liability to June 30, 2022. These actuarial valuations used the following actuarial assumptions:

- Discount rate 3.54%
- Salary increases 3.25% plus merit
- Healthcare cost trend rates 5.17%

Mortality rates are based on the Sex-distinct Employee, Healthy Annuitant, and Disabled Annuitant Mortality Tables derived from the Pub-2010 General Benefits Weighted Annuitant Mortality Table, including adjustment factors. Future mortality improvements are reflected by applying a custom projection scale on a generational basis to adjusted base tables from the base year.

The total OPEB liabilities are measured based on the assumptions pertaining to interest rates, inflation rates, and employee demographic behavior in future years. The assumptions used were based on the results of an actuarial experience study conducted in 2021 and covering the period July 1, 2015 through June 30, 2020. It is likely that future experience will not exactly conform to these assumptions. To the extent that actual experience deviates from these assumptions, the emerging liabilities may be higher or lower than anticipated. The more the experience deviates, the larger the impact on future financial statements.

# **Discount Rate**

The discount rate used to measure the total OPEB liability was 2.16% at the beginning of the current measurement period and 3.54% at the end, based on the Bond Buyer GO 20-Bond Municipal Bond Index, an index satisfying the GASB requirement of an index rate for 20-year, tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that employer contributions to the Plan will continue to follow the pay-as-you-go contribution policy. Based on the assumptions of a pay-as-you-go plan, the discount rates used at the June 30, 2022 and 2020 measurement date are equal to the applicable rate of the 20-year, tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher.

# NOTE 8 <u>RISK MANAGEMENT</u>

The School has purchased commercial insurance policies for various risks of loss related to torts; theft, damage, or destruction of assets; errors or omissions; injuries to employees; or acts of God. Payments of premiums for these policies are recorded as expenses of the School. Insurance settlements have not exceeded insurance coverage in any of the past two years. There were no significant reductions in coverage compared to the prior year.

# <u>Grants</u>

The School receives significant financial assistance from federal agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with

#### NOTES TO FINANCIAL STATEMENTS

#### NOTE 9 UNCERTAINTIES (cont'd)

terms and conditions specified in the grant agreements and is subject to audit by the State Office of Auditor of Accounts. Any disallowed claims resulting from such audits could become a liability of the general fund. The School's administration believes such disallowance, if any, would be immaterial.

#### NOTE 10 EXCESS EXPENDITURES OVER APPROPRIATIONS

The School overspent budgetary appropriations in the following categories:

Travel	\$ 159
Communications	\$ 7,551
Transportation	\$ 109,133
Repairs and maintenance	\$ 3,465
Student activities	\$ 5,051
Food service	\$ 127,953

The excess expenditures were covered by amounts under budget in other areas.

#### NOTE 11 INTERNAL TRANSFERS

Interfund transfers for the year ended June 30, 2023 are as follows:

Transfer In	Transfer Out	Amount			
Debt Service Fund	General Fund	\$ 315,360			
Debt service Fund	General Fund	Ş 315,30U			

Transfers from the general fund to the debt service fund were to cover current year debt service payments. There were no interfund payables or receivables as of June 30, 2023.

# NOTE 12 DEFICIT NET POSITION

For governmental activities, the unrestricted net deficit amount of \$10,612,431 includes the effect of deferring the recognition of pension and OPEB contributions made subsequent to the measurement date of the net pension and OPEB liability, and the deferred outflows related to the pension and OPEB plans. This is offset by the School's actuarially determined pension and OPEB liabilities, and the deferred inflows related to the pension and OPEB plans.

# NOTES TO FINANCIAL STATEMENTS

# NOTE 13 COMMITMENTS AND CONTINGENCIES

In the normal course of business, there are various outstanding commitments and contingent liabilities in addition to the normal encumbrances for the purchase of goods and services. The School does not anticipate losses from these transactions.

#### **Capital Improvement Commitments**

# SINGLE AUDIT SUPPLEMENT

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

September 26, 2023

Board of Directors Providence Creek Academy Charter School, Inc. Clayton, Delaware

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of the governmental activities and each major fund of Providence Creek Academy Charter School, Inc. ("the School"), Clayton, Delaware, as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the School's basic financial statements, and have issued our report thereon dated September 26, 2023.

# Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the School's internal control over financial reporting ("internal control") as a basis for designing procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School's internal control. Accordingly, we do not express an opinion on the effectiveness of the School's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the School's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control weakness, yet important enough to merit attention by those charged with governance.

- 47 -

# **Board of Directors** Providence Creek Academy Charter School, Inc.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

# Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the School's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

# Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the School's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the School's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

September 26, 2023

Board of Directors Providence Creek Academy Charter School, Inc. Clayton, Delaware

# Report on Compliance for Major Federal Program

# Opinion on Major Federal Program

We have audited the Providence Creek Academy Charter School, Inc.'s ("the School") compliance with the types of compliance requirements identified as subject to audit in the OMB Compliance Supplement that could have a direct and material effect on the School's major federal program for the year ended June 30, 2023. The School's major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings and recommendations.

In our opinion, the School compiled, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on its major federal program for the year ended June 30, 2023.

# Basis for Opinion on Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America ("GAAS"); the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States ("Government Auditing Standards"); and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards ("Uniform Guidance"). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Providence Creek Academy Charter School, Inc. and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We

- 49 -

# Board of Directors

Providence Creek Academy Charter School, Inc.

believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for the major federal program. Our audit does not provide a legal determination of the School's compliance with the compliance requirements referred to above.

We believe that our audit provides a reasonable basis for our opinion on compliance for the major federal program. However, our audit does not provide a legal determination of the School's compliance.

# Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the School's federal program.

# Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the School's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the School's compliance with the requirements of its major federal program as a whole.

In performing an audit in accordance with GAAS, Government Auditing Standards, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design
  and perform audit procedures responsive to those risks. Such procedures include examining, on
  a test basis, evidence regarding the School's compliance with the compliance requirements
  referred to above and performing such other procedures as we considered necessary in the
  circumstances.
- Obtain an understanding of the School's internal control over compliance relevant to the audit in
  order to design audit procedures that are appropriate in the circumstances and to test and report
  on internal control over compliance in accordance with the Uniform Guidance, but not for the
  purpose of expressing an opinion on the effectiveness of the School's internal control over
  compliance. Accordingly, no such opinion is expressed.

Board of Directors Providence Creek Academy Charter School, Inc.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

#### Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiency, or a combination of deficiency, or a combination of deficiency, or a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiency, or a combination of deficiencies, in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance that we consider to be material weaknesses, compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
